

To Whom It May Concern:

Based on REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) Regulation (EC) No 1907/2006, it is a European Union chemical regulatory framework that entered into force on 1 June 2007. Godex is diligent review of the information provided by our suppliers and uses the safety materials, Godex can report that our products and parts do not contain above the 0.1% weight (w/w) threshold of any Substance of Very High Concern (SVHC) on the following SVHC candidate list except the below table (Version 36: the total is 253 items and issued on 2026/02/04):

[Candidate List of substances of very high concern for Authorisation - ECHA](#)

Hereby declare for OD5+, OD5+ 300,OD9 products

Substance	CAS#	Article Type
Pb	7439-92-1	Glass Diode
Pb	7439-92-1	Copper alloy

According to the suppliers' feedback, Godex is not aware of the presence of any of these SVHCs in our products. If applicable upon request and above the 0.1% weight (w/w), Godex will still follow SVHC list in the future and suggest its customers about the presence of these substances.

Godex is primarily a Downstream User as defined by the requirements of the European Union (EU) Regulation, Registration, Evaluation, Authorization and restriction of Chemicals (REACH). Godex will purchase raw materials from upstream suppliers that follow through with the final REACH registration. Godex finished products (Barcode Printer and its Accessories, Optional Modules and Spare Parts) are defined as preparations, mixtures or assemblies that will not require registration under Article 7.1 of REACH. Be assured that Godex will continue to monitor the REACH regulations for any new Substances of Very High Concern (SVHC) that may be included in subsequent ECHA candidate lists. Godex will compare any newly listed SVHC with the raw materials in our finished preparation / mixture product lines and communicate this information to our customers.

Respectfully
